

SiGNAL Code of Ethics and Behaviours

This is a common sense document asking you to behave like a responsible and considerate human being at all times while you are on our premises, in our grounds or our online platforms. Here are some examples of ethical and responsible behaviour – it is not exhaustive!

Please always do the following:

- Be considerate of our community and the wider community
- Always respect the rights of others
- Avoid racist, misogynist, sexist, homophobic language or behaviour
- Respect our property and that of other people
- Keep noise to an acceptable level
- Leave any space that you use in the same state that you found it
- Take your rubbish with you
- Always lock up the premises and check windows, lights, toilets and taps
- Lock away all equipment as requested
- Leave the building quietly and ask your customers or guests to do the same
- Abide by the terms of your contract
